Author(s) Tode, Johan Clemens

^c Tode, Johann Clemens

Title To store indenlandske Lægemidler helst emod Koldfebre og Skørbug.
/Two important domestic remedies particularly against fevers
and scurvy/

Abbreviated reference Sundhedsblade 1785/86(33/34): 257-270. 1786 [2 May];
MLP 3682 1785/86(35/36): 281-285. 1786 [26 May].

Notes Leontodon Taraxacum L.= Dan. Smørblomst, Munkehoved, or Præstekrone, is discussed for its many medicinal uses. The second plant is Kriticum repens L., Gramen caninum of the apothecaries= Dan. Quikgræs or Hundegræs, but "space does not permit details on that in this issue." Thus it is treated in the following issue.
