Abbreviated reference Sundhedstidende 1785/86 (38): 297-303. 1786 [12 June].
MLP 3682 1785/86 (42/43): 340-342. 1786 [30 June].

Notes The first installment deals mainly with the successful cultivation of this plant by the apothecary Tekel, in Königsberg, the first plants having been obtained by him from the Botanical Garden in Copenhagen.
